Biography

Milo Rigaud was born in Port au Prince, Haiti, in 1903, where he spent the greater part of his life studying the Voodoo tradition. In Haiti he studied law, and in France ethnology, psychology, and theology. The involvement of Voodoo in the political struggle of Haitian blacks for independence was one of his main concerns.

Definitely one to add to your magical library. The author is sharing what he has observed and heard over the years. Please note that the author does not give m any "how to's" so if that's what you're looking for, you won't find it in this book and not too many other books for that matter. Voodoo is an oral practice and usually not shared with just anyone.

I did not give this a lesser rating due to the observation of a ghede and zin ritual. As I have knowledge of qaballah it did make some connections for me in theory.

However I really question alot of the links he made. He says the colors used for the spirits are qaballistically appropriate, this is not mostly the case. He belates the use of perfumes which do not have qaballistic links to the spirits planetarily.

He says the trinity is dhamballah legba and erzulie and wasn't really metaphoric about it.

He uses hebrew to delinate parts of the ritual as parts of the soul and plane in judaic theory, but does not describe or translate hebrew, which would be lost on those not of a ceremonial magick backround.

He states moses worked with a petro snake spirit, and I know moses is used for petro dhamballah (not discussed), but he talks likes its literal which is strange since these spirits are historically from the revolution in haiti and some some fairytale land in the middleeast whether or not you beleive in christianity it stands.

Maybe a semi-gnostic allusion to the angry god of the old testament?

Yes I am aware how some european traditions and masonry made its way into the diasporic religions, however it is a stretch at times, and would be very confusing to a beginner or novice especially one not immersed in ceremonial magick or qaballah.

Some say he was in secret societies in haiti, but he was educated in france and came back with the UN and NGOs and their doctors, and writes like a blan outsider ethnographer. I would have preferred he only write about what the people themselves think and not his masonic interpretations.

The author is writing for a Euro audience and has taken GREAT creative writing liberties in trying to tie in Voodoo with Moses and ancient Ethiopia or Cush.

[Report abuse](#)**Search Customer Reviews****Good academic notes**By [Aisling D.](#) on August 13, 2001Format: Paperback **Verified Purchase**

Although this book is not for beginners, it provides a wide and varied assortment of notes from the author's thirty-year study of Voodoo/Voudou, mostly in Haiti but also in the Americas. Originally published in the 1950's, this book includes folklore and legends, as well as academic notes.

If you're interested in this subject, "Vodou Visions" by Glassman is a better choice for beginners, or "Jambalaya" by Luisah Teish to explore women's spirituality, particularly Voudou- and African-related. Both of those books are vastly easier to read, and more current.

However, for thorough research into Vodun/Voudoo/Voodoo, this book provides extensive information, and some unrelated but insightful notes to lead you deeper into the context of African-based traditions.

There isn't much I can say other than this book is a hard read. My fault enough. Being green to the subject I guess I jumped in the deep end.
